Attorney's Docket No.: 5-142US1 / C1-A0229Y1P-US

REMARKS

The amendments to the specification clarify the translated text and correct errors in the original Japanese specification, all of which are apparent when read in the context of the entire specification. Support for the term "modified form(s)" can be found at, for example, page 18, line 14. The amendments also correct the title, add a cross-reference to related applications, and insert into the specification a paper copy of the sequence listing in which the general information has been updated to reflect accurate information for the instant application. No new matter has been added.

Claims 1-13 are pending. Claims 5, 6, and 11 are amended to remove multiple dependencies. New claims 12 and 13 are supported by the original claim 11. No new matter has been introduced by these amendments.

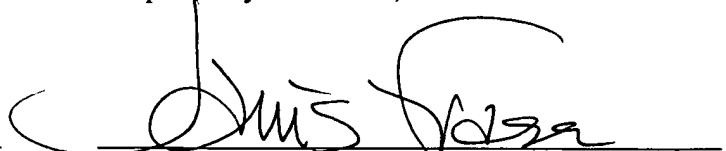

Applicant asks that all claims be examined in view of the amendment to the claims.
